Career Objective

Final-year Computer Science and Engineering student at North South University with hands-on experience in front-end web development. Skilled in HTML, CSS, MySQL, C, and Python, with project experience including a Mental Health Counseling System, Hospital Management System, and Online Quiz Platform. Interested in building user-friendly interfaces, problem solving, and continuous learning. Seeking a front-end developer or internship opportunity to apply skills and grow through real-world projects.

Educational Background

B.Sc. in Computer Science and Engineering

North South University | Ongoing

Python With Machine Learning

Creative IT Institute | Ongoing

HSC(Science)

Shaheed police smriti college | passing-2020

SSC(Science)

Sher-E-Bangla Government Boys' High School | Passing - 2018

Skills

Technical Skills

- MySQL
- Programming Languages (C, Python)
- Web Development (HTML, CSS, JavaScript)
- Problem Solving

Work Experience

Web Developer (Student Project)

Mental Health Counseling Center Web Application

Designed a responsive web platform for mental health counseling. Implemented user registration, counseling session scheduling, and secure data management using PHP and MySQL. Focused on user experience and accessibility.

Online Quiz System

Built a dynamic quiz system that enables user registration, quiz creation, and score tracking. Developed with PHP and MySQL to ensure smooth functionality for students and faculty.

Hospital Management System

Developed a hospital web platform allowing patient registration and doctor scheduling. Integrated MySQL for data management and built a fully responsive interface using HTML, CSS, and PHP.
