SUMMARY

Computer Science and Engineering graduate from North South University, passionate about building innovative software and AI solutions. Combining strong problem-solving skills with web development and machine learning expertise to create impactful applications and solve real-world challenges through technology.

TECHNICAL SKILLS

Programming Languages	Web Development	Database	AI / ML	Tools & Platforms
- Python - C - PHP	- HTML, - CSS, Figma - JavaScript	- MySQL - SQL	- PyTorch, BERT, Wav2Vec2, - TimeSformer, Machine Learning, Deep Learning	- Git, - GitHub

INTERNSHIP EXPERIENCE

Intern Developer (.NET) — Itransition Remote	Aug 2026 -Present
- Gained hands-on experience in .NET development and industry practices. - Worked on practical software development tasks under mentor guidance.	
Artificial Intelligence Intern — Crixsoft Solution Remote	Jul 2026 – Aug 2026
Contributed to AI-driven projects by applying machine learning concepts to practical industry solutions.	

EDUCATION

Bachelor of Science in Computer Science and Engineering, North South University	Jan 2022 - Apr 2026
Higher Secondary Certificate (Science), Shaheed Police Smrity College	May 2018 - May 2020
Secondary School Certificate (Science), Sher-E-Bangla Government Boy's High	Feb 2018

RESEARCH EXPERIENCE

Multimodal Emotion Detection with Deep Fusion, Research Project Deep Learning & Multimodal AI
- Developed an AI-based multimodal emotion recognition system. - Integrated BERT, Wav2Vec2, and TimeSformer for emotion detection. Built a real-time emotion analysis and prediction prototype.
Deepfake Detection Research, Research Project Deep Learning & Computer Vision
- Researched deepfake detection using deep learning techniques. - Explored feature extraction and model evaluation methods. - Analyzed synthetic media detection approaches.

PROJECTS

Hospital Management System
- Developed a hospital management platform for patient registration and appointment scheduling. - Integrated MySQL database for efficient data management. - Built responsive user interfaces using HTML, CSS, and PHP.
Online Quiz Platform
- Developed an online quiz platform with user registration and score tracking. - Implemented quiz management and database integration. - Enhanced user experience for students and administrators.

CERTIFICATES

Python with Machine Learning	AI Agent Olympics Hackathon	Frontend Web Development Certification
- Creative IT Institute - Machine Learning, Data Analysis, Python Programming - Duration: 6 Months	lablab.ai – MilanAI Week - Advanced Multimodal AI & Deep Learning	- Free Code Camp & UY LAB - HTML, CSS, JavaScript - Duration: 4 Months

LANGUAGES

Bangla: Native English- Professional working Proficiency
